

A welcome addition to the Dahms Wealth Management team, Daniel continues to deliver top notch investment advice combining financial planning, tax efficiencies, and estate consideration. Being part of a larger team has allowed for Dan to take advantage of the synergies and resources that have developed from being in our South office.

After graduating from the University of Calgary and traveling abroad for a year, Daniel joined National Bank Financial Wealth Management in 1997 as an Investment Advisor. Over the past 20 years, Daniel has provided guidance and direction to multigenerational clients who trust his open and honest communication and transparent financial principles. Daniel is passionate about building clients an all-inclusive financial plan that creates the income and the growth they desire, while ensuring that they achieve their goals to protect their family and/or business. This continuous and cohesive detail to planning is the cornerstone to reinforcing the peace of mind and the aspirations for our clients.

Married to his high school sweetheart and along with their two teenage daughters, the Russell family lives a dynamic life filled with family, friends, sport, and adventure. In the past, Daniel served as a board member and Treasurer for the Community Crisis Society in Strathmore, as well as volunteered in Tijuana, Mexico building homes for families with the Homes for Hope Foundation.
